

ENTERPRISE TECHNOLOGY EXECUTIVE

Vishal Sinha

Vishal Sinha spends his time at the intersection of AI, cloud and enterprise strategy — helping technology companies and ASEAN enterprises turn complex, emerging capabilities into commercially viable outcomes. After two decades in senior leadership roles at Microsoft, AWS and IBM across APAC, he now advises on Sovereign AI, GPU-as-a-Service and market entry as Managing Director of GenAlthical. He's based in Singapore, and always open to a conversation about where AI and cloud transformation are headed next.
